

Amendments to the Claims:

Please cancel claims 2-42.

Listing of Claims:

1. (Original) A voltage discharge circuit adapted to be coupled to a first node and a second node and adapted to receive first and second discharge signals, the voltage discharge circuit operable in a first mode in response to the first discharge signal to couple the first node to the second node and to discharge voltages on the first and second nodes at a first rate, and operable in a second mode in response to the second discharge signal to discharge the voltages on the first and second nodes at a second rate.

2-42. (Cancelled)
